

Hinsichtlich metallischer Korrosion geprüfte und freigegebene Feuchtmittelzusätze für Bogenoffsetmaschinen

Die Feuchtmittelzusätze wurden seitens HEIDELBERG nicht auf Druckeignung überprüft.

Eine Schädigung der Gesundheit wurde nicht beurteilt.

Eine Prüfung auf Quellen von Kunststoffen oder Elastomeren wurde erst nachträglich eingeführt. Ältere FMZs sind nicht geprüft.

Metallic corrosion tested and approved dampening additives for sheetfed offset presses.

Additifs de mouillage contrôlé par corrosion métallique et certifié pour machines offset-feuilles.

Aditivos de humectación probados y homologados para máquinas offset para pliegos.
